

CAMS NY HEP B FREE CLINICIAN HONOR ROLL

The goal of the CAMS New York Hep B Free Campaign is to make hepatitis B screening standard of care for susceptible populations, within the primary care setting, and among other physicians such as obstetricians and gynecologists with responsibilities under the U.S. Centers for Disease Control & Prevention's national recommendations.

CLINICIAN PLEDGE

I, _____ pledge to be a Hepatitis B Clinician Honor Roll by:

Screening patients at risk for chronic viral hepatitis B infection in accordance with the national guidelines published by the Centers for Disease Control and Prevention, including all patients from areas of the globe with intermediate to high prevalence rates, especially Asia and the Pacific Islands. cdc.gov/MMWR MMWR 2008; 57 (RR-8)
